FORCE FACTS

Name: BB-8
Affiliation: Resistance
Owner: Poe Dameron
Droid type: Astromech
Skills: Navigation, piloting, ship maintenance, data storage
Kylo Ren is one of the newest vile villains in the Star Wars™ universe.

Take a look at the two pictures of Kylo and circle the 6 differences between the images. Good luck!

ANSWERS:
1) Kylo Ren’s lightsabre is shorter.
2) His trousers are dark green.
3) He has an extra strap on his right boot.
4) His mask has less silver lines.
5) The handle of his lightsabre is missing.
6) His tunic is narrower.
MASTER YODA
STICK PUPPET

Judge a puppet by its size, will you? Make up your own stories about the Jedi Master’s adventures with this fun Yoda puppet. It’s up to you which version you want to make—Prequel Trilogy Yoda, Clone Wars Yoda, or Original Trilogy Yoda.

WHAT YOU NEED

- Yoda body pattern
- Yoda robe pattern
- Scissors
- Green, brown, red, and tan or gray felt squares
- Straight pins
- Craft stick
- Googly eyes
- Glue

1. Cut out the Yoda body pattern on the next page and secure to the piece of green felt with straight pins. Then cut the felt following the pattern.

2. Cut out the Yoda robe pattern on the next page and secure to the piece of brown felt with straight pins. Then cut the felt following the pattern.

3. Now you need to make Yoda’s tunic. Cut out a piece of tan or gray felt a little larger than the collar opening of the robe. Glue this to the back of the robe.

4. Glue the robe and tunic to Yoda’s body.

5. Turn Yoda over and glue the craft stick to his back. Leave part of the stick exposed on the bottom so you have a handle for the puppet.

6. Finally, cut a small green square from the scrap felt for the nose and a small red triangle for the mouth. Glue these to Yoda’s head along with the googly eyes to make his face!

BITH BAND SPOON PUPPETS

The Mos Eisley Cantina may not be the safest hangout, but Figrin D’an and his Bith band—the Modal Nodes—sure make it hoppin’!

WHAT YOU NEED

Black beads
Strong glue
Wooden spoon
Light beige, black, and gray pieces of felt
Scissors
Pipe cleaners
Self-adhesive nylon fastening tape such as Velcro

1. Glue two black eye beads halfway between the tip of the spoon and where the handle meets the base.

2. Cut a tiny circle of black felt and glue it below the buttons for the mouth. Cut thin C shapes in the beige felt and glue on the face for the Bith’s respiratory folds.

3. Wrap a pipe cleaner around the spoon handle so that your puppet looks like it has two arms.

4. Fold the black felt in half and cut out a long-sleeved shirt shape. Glue the front and back on the spoon handle with the pipe cleaner arms in between the shirt’s sleeves. If you want to make the shirt extra-secure after you glue it in place, you can sew it as well.

5. Fold the beige felt in half and cut out two sets of hands with long fingers. Glue the fronts and backs of the hands to the ends of the pipe cleaners.

6. Using colored felt, make some instruments. They can be ones you recognize from this planet—or make up your own weird instruments! Stick nylon fastening tape such as Velcro on one side of the instrument and another piece on the hand of your puppet. Make four more puppets to complete the Modal Nodes band!
MAKE YOUR
OWN LIGHTSABER

In ancient times, Jedi Knights built their own lightsabers. Ask an adult to help you build your own lightsaber.

1. Cut a 3-foot piece of foam pipe insulation.

2. Put duct tape on the handle, alternating black and gray with various widths.

3. Use colored duct tape to complete the “light” part.

4. Place small stickers on the handle as buttons, or draw them on with a marker.

CR-8R is the Graf family droid, made from a mixture of different droids. We’ve drawn CR-8R’s left hand side, can you draw the right? Be as imaginative as possible!

Collect Them All, You Must!

Adventures in Wild Space
When their parents are kidnapped, Milo and Lina set out in the Whisper Bird to rescue them. Narrowly escaping the villainous Captain Korda they are now on course to the planet Thune, but a little too quickly....

Lina moved over to a computer screen and activated a hologram. It showed a blueprint of the Whisper Bird.

‘The generator is here,’ she said, pointing at a flashing red light at the centre of the ship. ‘And the jammed hatch is there.’

‘OK, so how do you get past it?’

Lina swallowed. ‘You use the external hatch, here.’ She pointed toward a small doorway on top of the ship.

‘External, as in outside?’

Lina tried to keep the fear from her voice. ‘Yup.’

‘We’re in space, Sis. You can’t go outside the ship while we’re in space!’

‘What do you think space suits are for? Besides, if I don’t, we’ll never land safely.’

Before Milo could respond, CR-8R’s voice crackled over the com-system. ‘Mistress Lina, whatever you’re going to do, may I suggest you do it quickly. The retro-thrusters have failed. We can’t slow down.’

Lina slammed her hand against a nearby com-unit in frustration. ‘Change course then. Fly us away from Thune.’

‘I can’t. The controls aren’t responding. If we can’t change course very soon – I’m afraid the Whisper Bird is going to crash directly into the planet...’

‘Quick! What do you think is going to happen next? Is Lina going to be able to fix the ship before it crashes into planet Thune? Or can Milo get everything under control and steer the ship clear of the planet! Write the next exciting part of the story here!’
